## USB CHARGING

- \*The indicator light will flash while charging and remain on when fully charged.
- \*Please use a 5V charger with the USB port. It takes about 120 minutes to fully charge the battery.
- \*Once fully charged, the working time is approximately 60 minutes.

### Headset/Charging port:

Located on the back of the product, it uses a 3.0 audio charging cable.  
When the voice function is on, a 3.0 jack headset can be inserted to play audio.

## PRODUCT CLEANING

- **Cleaning:** After use, there may be secretions and residual liquid left. If not cleaned in time, bacteria can breed. Wash the product with warm water and scented soap. It is recommended to wash in hot water (50°C). Avoid getting water into the switch or charging hole. Use your fingers to clean; do not use brushes or acidic cleaners.
- **Wiping:** After washing, wipe it with a lint-free cloth or towel.
- **Maintenance:** Remember to turn off the power after use to prevent any potential damage to the product or power supply. Store it in a flannelette bag or dust bag in a cool, dry place.
- **Forbiddance:** Do not use cleansers containing alcohol or gasoline. Avoid contact with water and direct sunlight.

## SAFETY

- Please do not place the product in an area where heat cannot dissipate.
- Since it is a personal hygiene item, please do not share it to avoid bacterial infection.
- While the product has many functions, overuse may lower the sensitivity of the body.
- It is recommended to use the product with a condom and professional lubricating fluid for better results.
- Please stop using it immediately if you feel unwell or if the product is damaged.
- Do not use massage oil, skin cream, gasoline, acetone, or other chemicals as substitutes for professional lubricating fluid.
- Clean the product immediately after use and store it properly to avoid bacterial infection.
- After cleaning and maintenance, store the product in a cool, dry, and secure place. If storing for a long time, please recharge it before use to avoid running out of power. For battery-operated products, remove the batteries before storing them.
- Our products should only be charged with a 5V charger. Using a charger with a lower voltage than 5V will not charge the product properly.
