FUNCTION

Suction button:

Short press "☹️" to activate suction with a total of 5 patterns. Long press "☹️" for 1.5 seconds to turn it off.

Deflate button:

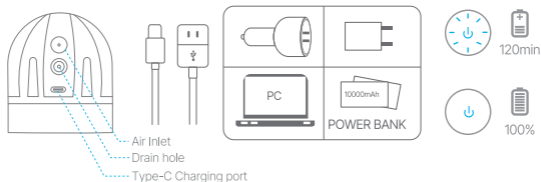

Press "😊" releases air pressure from the vagina.

Vibration button:

Short press "⚡" to start the vibration function with a total of 7 patterns and 3 speeds. Long press "⚡" for 1.5 seconds to turn it off.

USB CHARGING

1. The indicator light will flash while charging and stay on when fully charged.
2. Use a 5V charger with the USB port for charging. It takes approximately 120 minutes to fully charge the battery.
3. Do not power on the device while charging.

PRODUCT CLEANING

1. Hold the bottom of the product in your hand and turn it clockwise until the arrow aligns with "OPEN." Then, split the parts apart for cleaning.
2. The controller part should not be cleaned with water. Remove the soft rubber part for cleaning, align the vaginal opening with the faucet, and rinse it with clean water.
3. Turn on the first suction mode to drain all the water out.
4. Hold the bottom of the product, align the column with the hole in the middle, and ensure the arrow is aligned with "OPEN." Press it firmly and twist counterclockwise until the arrow moves to "CLOSE," locking it in place.
5. Clean the exterior and allow it to dry thoroughly.
6. Store the product in a cool, dry place, away from children.

Note: The product should not be submerged in water for cleaning.

- Clean after use: Wash with warm water and scented soap to remove secretions and residual liquid. If not cleaned promptly, bacteria can grow. Avoid water entering the switch or charging port. Wash gently with fingers, not brushes or acidic cleaners. Use hot water (50°C).
- Drying: After cleaning, wipe with a lint-free cloth or towel.
- Maintenance: Turn off the power after use to prevent damage. Store in a cool, dry place using flannelette or dust bags.
- Prohibited: Avoid using cleansers containing alcohol, gasoline, or harsh chemicals. Keep away from water and direct sunlight.

SAFETY

1. Do not place the product in an area with poor heat dissipation.
2. For hygiene reasons, do not share the product with others to avoid infection.
3. Although the product has multiple functions, avoid excessive use as it may reduce sensitivity.
4. Use with a condom and water-based lubricant for better results.
5. If the product malfunctions or causes discomfort, stop using it immediately.
6. Avoid using massage oils, skin creams, gasoline, acetone, or other chemicals instead of professional lubricants.
7. Clean the product immediately after use to prevent bacterial growth.
8. When not in use, store it in a dry, cool place, away from children. Recharge it before the next use to ensure optimal performance.
